IN order to make sure I get my account paid down as promptly as possible, I request the following:

1. Discontinue working on RCE '705 appeal, now, I will revisit next year

REDACTED

I have started a second job to help pay you back as quickly as I can. I hope to increase payments in the Fall.

Please Confirm.

That would be appreciated, but that would not even pay down the April-June Invoices by the end of the year. I do not mean to be difficult, because you have always paid every bill. But our accountants get understandably nervous when balances get too high, when we continue to work, adding to the balance.

I am planning to send at least \$10,000 per month in the foreseeable future.

Thank you. Are you planning a regular payment schedule of some type?

I have been exhausted working two jobs. So I have been tardy getting your reply. The delay is my fault. I have sent you a check for \$10,000 a few days ago. I will reply some time to your question.

If you responded to me on Monday as you indicated below that you planned to do, I have to date received no reply. I know that you sometimes have computer problems, so I wanted to report that I have not received anything, and I am still waiting, just in case you thought that you had sent a message to me.

I will reply tonight. I was working all weekend on my second job, to make sure you get paid in a timely fashion.

We began work on the claims for moving the '705 case from Appeal at the beginning of June and then got distracted with the recalculation of term and reexam matters. I found it a little difficult to pick up the chain of messages that went back and forth at that time, but if I have it right, I propose the following claim written in clean form because the mark up is too hard to follow for content. I'll deal with the mark up once the content is correct:

PS - Again congratulations on your success before the US Supreme Court. Sometimes its all a matter of timing and luck, and you seem to have been at the right place in your litigation at the right time. Well done!
